

# Confluence to be upgraded on fri 2013-04-05

Confluence.csc.fi will receive a version upgrade on fri 2013-04-05. Estimated downtime is 16:00-18:00 UTC+2.

The target version is 4.1.10 with [release notes](#) online.

New promised features include drag&drop file uploading and a form of wiki markup for page editing.

Please arrange your schedules so that the downtime will hinder only minimally any meetings or processes.

In the future, confluence.csc.fi will have a maintenance window on the first friday of every month at 16-18 UTC+2. The service is not guaranteed to be available during that time.
